

Shadab Shaikh

Motivated and enthusiastic second-year undergraduate student pursuing a degree in Artificial Intelligence and Machine Learning. Passionate about exploring AI and ML technologies, developing practical solutions, and enhancing skills in data analysis, programming, and machine learning algorithms. Eager to apply theoretical knowledge to real-world projects and internships in AI/ML domains.

EDUCATION

Shivajirao s.jondhale college of engineering

Pursuing Artificial Intelligence and Machine Learning

2022

Dr. Asadullah Khan English High School & Jr College

HSC - 62%

2021 - 2022

Symbiosis convent high school

SSC - 70.40

2020

CERTIFICATE

Web Development [🔗](#)

- Possessed certification in web development, showcasing expertise in the field.
- Held a certification in web development, demonstrating proficiency in web technologies.

Python course [🔗](#)

- Demonstrated professional acumen through a comprehensive internship program organized by SkillDzire.
- Gained valuable industry insights and hands-on experience through a structured internship program provided by SkillDzire.

PROJECTS

AI powered code reviewer

March 2025 - June 2025

- Developed a full-stack application utilizing the **MERN** (React.js, Node.js) technology stack.

Qr payment system

Nov-2024 - Feb-2025

- Developed a secure QR payment system leveraging **visual cryptography techniques** to ensure data protection and authenticity.

Fly Talker

Sep-2024 - Nov-2024

- Developed a real-time chat application utilizing the **MERN stack and Socket.IO** library to enable seamless communication between users.

Vehicle Detection

July-2024 - Sep-2024

- Built a **Vehicle Number Plate Detection Web App** using **Python and Flask** for efficient image-based recognition.
- Integrated **OpenCV** for plate detection and image processing to extract vehicle details.
- Utilized **SQLite** database to store detected vehicle records with date and time information.

Stock Prediction

July-2024 - Sep-2024

- Developed a **Stock Market Prediction web app** using **Python and Streamlit** for real-time user interaction.
- Implemented **machine learning models** to forecast stock price trends based on historical data.
- Used **Matplotlib** for dynamic graph visualization of predicted vs actual stock performance.

SKILLS

- **Frontend:** HTML, CSS, JavaScript and Bootstrap
- **Backend:** Node.js, REST API development, RESTful webservice
- **Database:** MySQL, MongoDB
- **Version control:** GitHub
